

Empathy Map

Date	30 September 2026
Team ID	SWTID-2026-5807
Project Name	AI-StudyBuddy
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS - I have too many topics and too little time to revise. - I need my doubts cleared right away, not after hours. - I wish my notes were short and easy to revise.	THINKS - Will I finish the whole syllabus before the exams? - Am I studying the right topics in the right way? - A personal AI tutor could make studying so much easier.
DOES - Searches many websites and videos to clear a single doubt. - Revises long handwritten notes at the last minute. - Postpones study sessions and misses planned schedules.	PRIYA (College Student) FEELS - Stressed and anxious about exam performance. - Overwhelmed by scattered study material. - Unconfident about weak topics.
